

NEW! + UNIQUE...

MEDISEND® *protect*

The smallest magnetic field device
of the world ...

Provides everywhere for your personal
„shield“ against electric smog.

MEDISEND® *protect* – like a memory
stick and is the world's smallest
magnetic-field device.

... It is operated via any USB port on your PC / laptop

... generates a natural and complex electromagnetic field
of 7.8 Hz, the fundamental of the Schumann-frequency spec-
trum. Uniquely, in contrast to all other magnetic-field devices,
MEDISEND® *protect* also generates the geomagnetic-
frequency spectrum!

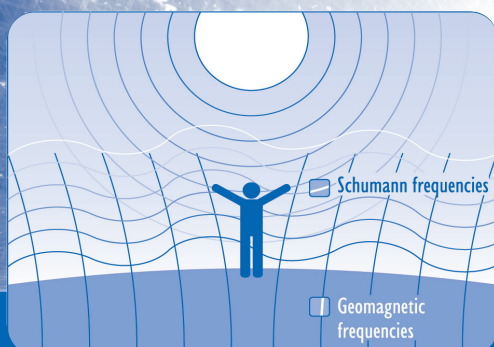

... the Schumann-frequency spectrum of 7.8 Hz is modulated
with a frequency of 1.2 Hz. This frequency has also proved to be highly
effective against elec-trosmog (particularly cellphone radiation)

... The effective range of the **MEDISEND®** *protect* is
approx. 40 cm (80 cm in diameter). There are no time stipulations
for its use. Make it easy for yourself: when working on your PC or
laptop, simply plug your **MEDISEND®** *protect* into a free USB
port.

... draws only current via the USB port; therefore no problems
whatever are encountered with other user programs on your PC.

**...Electrosmog disrupts our endogenous
“bio-currents”!**

**Therefore don't wait until your orga-
nism reacts sensitively to electrosmog.
Seize the initiative promptly with
MEDISEND® *protect*!**

Function – Application

Electromagnetic waves play a fundamental role in all living things. This is because they control and regulate the endogenous “bio-currents”. Communication in the individual cells, between the cells, and from the brain, muscles and organs is founded on tiny electromagnetic pulses. If these “biocurrents” are constantly disrupted from the outside by electrosmog, the “electrical mechanisms of our organism” can be thrown out of sync. Biologically sensitive control circuits are subjected to increasing strain and disruption.

Modern workstations are packed full of electrosmog sources. You sit between the computer, laptop, fax machine, telephone, and photocopier / printer, you have to be constantly contactable, carry a headset, a cellphone and a bleeper, work under neon lights, use energy-saving light bulbs, nearby is a cellphone mast, UMTS, WLAN and Bluetooth ensure high-speed data transfer - with a flat rate you are permanently online. Children and teenagers in particular often sit for hours on end in front of their computers, at the same time chatting on their cellphones or a cordless phone, and listening to music through their earphones...

In the long run more and more people experience sensitive reactions to electrosmog. This is referred to in colloquial terms as “electrosmog sensitivity”. Permanent electrosmog radiation can cause different individual sensitivity disorders. We therefore advise:

Listen to your inner workings – listen to your “inner doctor”!

Observe for yourself how you react to electrosmog... biorhythm, hormone balance, immune system... insomnia, exhaustion, headaches, tenseness, and reduced productivity can be the first serious symptoms of increasing electrosensitivity...

Protect yourself and your family members against electrosmog! Specifically encourage your own regulation capability and the regulation capability of your loved ones... By stimulating, stabilizing and harmonizing the autonomic nervous system, you improve your capacity to concentrate and maintain attention, you gain energy, wellbeing and vitality, and you activate and boost your selfhealing forces.

MEDISEND®protect - specifically encourage your regulation capability!

Take the time to find out about our range of small and hand-held devices:

MEDISEND® – MEDICUR® – METRONOM solar – MEDICUR®color

Unique in the world! And look out for the arrows symbol!

Only the magnetic-field instruments developed by W. Ludwig of the Institute for Biophysics in Tauberbischofsheim (Germany) generate the electromagnetic biofield which is a copy of the one in the undisturbed nature and in the correct relation (YIN-YANG equilibrium).

The frequency spectrum of the 64 essential trace elements is generated by a unique world-wide process.

No risk attached – why don't you test the **MEDISEND®protect!**

You have the right to return it within 90 days with moneyback guarantee!

You can test **MEDISEND®protect** for a whole 90 days. Should you not be satisfied, send the instrument back to us (without giving a reason) within this period. We will refund the purchase price (excluding postage and packing) on the condition that the unit is in perfect condition.

Harmonic oscillations stimulate self-regulation!

Unlike all other standard devices on the market, **MEDISEND®protect** generates two harmonics:

Schumann-frequency spectrum of 7.8 Hz (main inherent value of the Earth's surface / ionosphere resonant system = YANG signal), which is superimposed by 1.2 Hz.

Geomagnetic-frequency spectrum (modulation of the Earth's magnetic field by the natural frequencies of the 64 trace elements = YIN signal)

Order number **100**

Presented by:

Technical data

Physiological range: approx.
40 cm / Weight: 15 g
Size: 70 x 20 x 12 mm
Operate by means of any USB
connection in the PC/ Laptop.

Scope of delivery

MEDISEND®protect
incl. comprehensive operating
instructions in a attractive
metal tin.

Inner life:
**Magneticfield-generating
Reel technology**

Guarantee

2 years.
